

YORKER HOLDINGS LTD

Yorker Holdings Ltd is a profitable and trusted investment program, established by a strong team of highly skilled traders and investment consultants in the offline and online investment market. We put your investments in new highly remunerative innovative projects, which offers great returns along. Today our company has a professional team to develop a business. We know how much, where and when to put your investments. In addition, we know how to achieve maximum income. We are constantly diversifying our investment portfolio and building stronger connections worldwide.

Our goal is to provide our investors with a reliable source of income, while minimizing any possible risks and offering a high-quality service, allowing us to automate and simplify the relations between the investors and the trustees. We work towards increasing your profit margin by profitable investment. We look forward to you being part of our community.

Our asset management program was created as an opportunity to avoid these risks while guaranteeing quick and high profit to investors. At the same time, you do not need to know the ins and outs of the stock market. You just need to open a deposit and our experienced professionals will work for you.

Brokers profit from performing their services, as well as commissions from buying and selling shares. They are not interested in increasing their clients' profits.

Yorker Holdings Ltd Group performs in an absolutely different way.

On the contrary, we assume all risks. Our investors receive guaranteed profits, and traders work to increase income on deposits, because their profits directly depend on income. In Yorker Holdings Ltd Group an experienced team of specialists works every day to accurately predict the slightest fluctuations in the international market, company specialists use strategies that have been verified over the years, constantly collecting and analysing data. We have developed four convenient tariffs for private investors with different financial capabilities. You can choose the optimal tariff and start

making profits today.

OUR GOAL

Yorker Holdings Ltd Investment was built with the mission of making investing a simpler endeavour for everyone, not only expert investors. Democratization is a noun that represents this new century in a very strong sense. With technology becoming more accessible to more people, the solutions they bring are expanding into new markets as well. We utilize this new ubiquity of technology to bring cutting edge investing solutions and planning right to your screen.

With the simple and logical investment plans accompanied by high and stable profit, it will simplify everyone's thinking about the online investment world and help people make money more easily in that.

WHY CHOOSE US

Cryptocurrency brings nice income if you deal with it wisely. This e-money isn't issued by the banks, isn't regulated by the government, and isn't given as a loan. All the operations are processed only in digital form, and everyone can generate cryptocurrency, or mine. No world factor can influence the development of this technology. There are just economical laws, demand and offer.

To exchange, sell or purchase cryptocurrency you need to enter any of the numerous online exchanges. The matter is that they are anonymous, and the assets there are never frozen.

When there is a big amount of news about the cryptocurrency on the Internet, the demand for it grows; at the same time, many people who want to change their lives and start earning enter the exchanges. But many of them just lose their money: you shouldn't risk in case you have no idea about the rules of the game.

What are we doing this for?

Digital currency, like a regular one, can change according to the purchase and sale rate couple times a day. To earn well by

selling cryptocurrency, you need to realize that you will have to forecast possible risks and take them into consideration. Besides, you should also make analytical forecasts very accurately and regularly monitor the market.

The aim of our organization is to – establish the company where the best players with digital currency will participate. And to reach this goal, we need investments from the individuals and legal entities.

Every employee of ours has a vast experience of work and easily processes a current analysis of the currency and chooses the most beneficial conditions for the investments. The investment fund has to minimize the risks and provide a stable, daily profit for the investors with the further reinvestment of the assets gained. In other words, the investors help us to develop, and we, in our turn, provide a nice profit for the investors.

Getting Started

Open an account

Open an account by clicking on the Register link on our website and click on the open an accounts button. As soon as the page comes up, enter your personal information, with your email address and chosen password, and that is it. This should not take more than a few minutes. REAL ESTATE

CREATE WEALTH THROUGH REAL ESTATE

JOIN OVER 7.000.000 PEOPLE WITH THE WORLD'S LEADING REAL ESTATE PROVIDER

Yorker Holdings Ltd Investment strives to get a #1 position in commercial real estate business. The key directions for our company are: audit (as a professional evaluation services); brokerage (a mediator role for facilitation of a real estate transaction between the two par-ties); net leasing; property management and real estate marketing. Aside from the sectors listed above the STB provides some relocation services for people or business moving to a different country.

Yorker Holdings Ltd Investment is building the world's leading real estate investment marketplace. Our mission is to make ownership of investment real estate radically accessible, cost-effective and simple.

Our platform lets everyone from first-time investors to global asset managers evaluate, purchase and own residential investment properties with confidence from anywhere in the world. Since launch, we have surpassed \$4 billion in transactions and continue to disrupt the industry with innovative technology and innovations. No matter your investing goals, Yorker Holdings Ltd Investment is here to help.

Clunky, opaque, inefficient... the process of buying and selling investment properties was badly in need of a rethink. Frustrated, Gregor Watson, founder of multiple financial and investment firms and a long-time investor in the real estate space, reached out to Gary Beasley to brainstorm. Gary had invaluable perspectives on technology and deep industry experience at various successful real estate, hospitality and tech companies and leading two companies through IPOs. They soon invited Rich Ford to the conversation. Rich had more than 20 years of M&A and MX raising experience, and was a pioneer in the single-family rental investing space.

With their combined experience along with Silicon Valley's top tech talent and investors, they built a vibrant marketplace where investing in real estate is as easy as investing in stocks.

AGRICULTURE

BUILD WEALTH THROUGH AGRIC TECH BASED INVESTMENTS

HIGH PROFIT POTENTIAL FARMLAND INVESTMENTS MAN-AGED BY EXPERT FARMERS TEAM

An agriculture investment is any investment into agricultural land or into a business that supports the agribusiness industry. Agricultural land is also referred to as farmland, arable land, cropland, or cultivated land. Agribusiness is any business that deals with agricultural products or services necessary in farming. This can include businesses like seed or fertilizer distributors, timber businesses, tractor companies, and processing or packaging facilities.

At Yorker Holdings Ltd , we are passionate about bridging the gap between investors and agriculture. Farmers will have to produce 70% more food by 2050. With demand for food skyrocketing and the availability of farmland decreasing, we believe that investing in farmland is a smart move.

The world's population is growing, and rural areas are dwindling. Savvy investors see this as an indicator that demand and

associated prices for agricultural areas and farmland are set to rise. Investing in agriculture can offer investors opportunities that are ripe for the picking (pun intended).

There is only so much land on our planet. Arable land, land sufficient for traditional farming, is limited to areas with adequate moisture, soil, and temperature. One large influence of the continued and growing demand for agricultural land is the fact that the world population has quadrupled in the past century, and it's estimated the demand for food will increase between 59% to 98% by 2050.

GOLD TRADING

INVEST IN GOLD CFDS WITH YORKER HOLDINGS LTD

LETS PARTNER AND BUILD YOUR FUTURE THROUGH GOLD INVESTMENTS

Invest with us and enjoy the benefits of vivid trade with up to 1:20 leverage. Our Trade experts choose a mix of spread betting and CFD Trading to speculate on Gold prices across various commodity exchanges such as LSE, NYME and HKEX.

Gold Trading is a lucrative option for many Investment firms as it provides the perfect balance between low risk and high returns trade. Throughout the global financial crisis, many investors chose to invest in gold as a hedge against economic turbulence.

Although both gold and currency prices are largely determined by the market and economic events, the specific events influencing those values differ significantly.

We speculate on gold futures with spread bets and CFDs. We seldom invest directly in Gold. Our gold futures trading occurs 24 hours a day, five days a week, except between 10pm to 11pm (Singapore time).

OIL & GAS

WE MADE OIL & GAS INVESTMENTS MORE ACCESSIBLE

START INVESTING AND PREDICTING THE OIL PRICE WITH JUST A FEW CLICKS

Energy resources area is one of the fundamental elements of the activities where Yorker Holdings Ltd subsidiaries are involved. Today our subdivisions are occupied with exploring, extracting, refining, transporting (using pipelines and oil tankers), and subsequent marketing oil and gas products. Our products are used as the raw material for a large variety of chemical products, including pharmaceuticals, solvents, fertilizers, pesticides, and plastics. This sector is supported by the major industry giants which now are our important partners.

Day trading 'Crude oil' is about speculating on short-term price movements, rather than attempting to assess the "real" value of crude. By using a combination of long and short positions, our traders turn a profit whether the price of crude is rising or falling.

Crude Oil trading usually occurs on-spot, commodity markets are non-expiring and are not subject to an expiry date or rollover charges. These markets are priced based on the Futures contract and offer the opportunity to trade these markets long term without the need to roll.
